Stakeholder Identification

Stakeholders are individuals or groups who are directly or indirectly affected by TEN's operations.

Primary Stakeholders:

- Students (Interns)
- Aspiring Entrepreneurs
- Mentors/Trainers

Secondary Stakeholders:

- Startup Partners
- Educational Institutions
- Internal Team (TEN management)

Stakeholder Analysis

Stakeholder	Interest Level	Influence Level	Expectations
Students	High	Medium	Skills, certificate, career growth
Mentors	Medium	High	Engagement, compensation, impact
Startups	Medium	Medium	Talent, research support
Colleges	Low	Medium	Placement & exposure
TEN Team	High	High	Growth, revenue, operations

Insight: Students = High Interest, TEN Team = High Influence

Stakeholder Mapping

High Influence – High Interest
TEN Core Team

High Influence – Low Interest
Colleges / Institutions

Low Influence – High Interest
Students

Low Influence – Low Interest
External audience

Insight: Focus most on TEN Team & Students

User Persona 1 – Student Intern

Name: Riya Sharma
Age: 20
Background: BBA Student

Goals:
- Gain practical industry experience
- Build a strong and job-ready resume
- Develop in-demand business & analytical skills
- Secure better internship/job opportunities

Goals:
- Gain practical industry experience
- Build a strong and job-ready resume
- Develop in-demand business & analytical skills
- Secure better internship/job opportunities

Goals:
- Gain practical industry experience
- Build a strong and job-ready resume
- Develop in-demand business & analytical skills
- Secure better internship/job opportunities

User Persona 2 – Aspiring Entrepreneur

Name: Arjun Mehta
Age: 24
Background: Startup Enthusiast

Goals:

- Build and launch a successful startup
- Gain practical business knowledge
- Network with mentors and like-minded people
- Understand market trends and opportunities

Pain Points:

- Lack of proper mentorship and guidance
- Limited access to resources and funding
- Uncertainty in business decision-making
- Difficulty in validating ideas

Needs:

- Access to experienced mentors
- Startup-focused training programs
- Networking opportunities
- Market insights and research support

User Persona 3 – Mentor / Trainer

Name: Neha Singh
Age: 26
Role: Industry Expert

Goals:

- Share knowledge and industry experience
- Build personal brand and credibility
- Contribute to skill development of students
- Expand professional network

Pain Points:

- Limited time availability
- Difficulty in maintaining engagement
- Lack of structured teaching framework
- Inconsistent participation from students

Needs:

- Well-structured program framework
- Flexible session scheduling
- Recognition and incentives
- Engaged and motivated participants

Key Insights

- Personalization of programs can increase student retention and satisfaction
- Continuous mentor engagement is key to maintaining program quality
- Data-driven decision-making can improve program effectiveness and scalability
- Strong brand positioning helps TEN differentiate in a competitive ed-tech market
- Feedback loops (from students & mentors) are essential for continuous improvement
- Partnerships with colleges can accelerate user acquisition at low cost
- Gamification and incentives can boost student participation and completion rates
- Scalable digital infrastructure is necessary for long-term growth and expansion
